No Fault Safety Tiles

No Fault Safety Tiles are manufactured in the **USA** utilizing 100% environmentally sustainable recycled rubber, engineered exclusively to reduce the risk of serious injury associated with falls from playground equipment. The **dense recycled rubber composition** enables **easy daily maintenance** and provides a clean, safe alternative to loose fill products such as wood mulch, sand or pea gravel.

No Fault Safety Tiles are available in traditional **PIGMENTED colors** or the increasingly popular **ULTRA color choices**. All files have matching components for transitions, corners and ADA accessibility. No Fault Safety Tiles are an excellent choice for new or renovated playgrounds offering easy installation, low maintenance and superior performance with the industry's **ONLY 15 year warranty!**

SBR Pigmented Tile Fall Height Chart

DEPTH	Fall Height
1"	2'
2.25"	6'
3.75"	8'
2.25" with foam pad	10'

EPDM ULTRA Tile Fall Height Chart

DEPTH	Fall Height
1"	2'
2.5"	6'
4.25"	8'
2.5" with foam pad	10'
