No Fault Safety Surface for Water Play & Multi-Purpose Applications

No Fault Safety Surface for Water Play is manufactured on site in multiple 100% color options and can be installed with **custom inlaid graphic designs and patterns** making it the perfect play surface for pool decks, splash pads and theme settings.

No Fault Safety Surface for Water Environments is designed for **barefoot play** on wet areas. This system is comprised of the **highest quality EPDM or TPV rubber** granules blended with a polyurethane binder, professionally installed at 3/8" total depth for both applications.

No Fault Safety Surface for Multi-Purpose Applications is designed for **High Intensity Recreation Areas** to promote active play while allowing a **cooler, slip resistant** and **less abrasive** surface.

No Fault Sport Group provides **coast-to-coast installation service** to ensure **consistent quality** and **premium customer service** for all of our poured-in-place surfaces!
