No Fault SporTurf for Playgrounds and Open-Play Areas

No Fault SporTurf is the new generation of safety surface designed to bring sustainability, long-term value, and improved performance to playgrounds and multipurpose open-play areas. This beautiful and lush artificial turf created for playgrounds features proprietary sports performance fibers proven to outperform ordinary landscape fibers.

No Fault SporTurf for playgrounds can be installed over foam padding or a poured-in-place impact layer providing superior fall protection and ADA accessibility. The result is an impressive, sleek multi-functional play area that requires little to no maintenance and meets up to a 10 foot fall height.

No Fault Sport Group provides coast-to-coast installation services to ensure consistent quality and premium customer service for all SporTurf applications.
